Humanitarian assistance would surge with 600 trucks carrying aid into Gaza every single day. With a ceasefire, that aid could be safely and effectively distributed to all who need it. Hundreds of thousands of temporary shelters including housing units could be delivered by the international community. All that and more would begin immediately. Immediately. During the 6 weeks of phase 1 Israel and Hamas would negotiate the necessary arrangements to get to phase 2 which is a permanent end to hostilities. Now I'll be straight with you, there are a number of details to negotiate to move from phase one to phase 2. Israel will wanna make sure its interests are protected. But the proposal says should the negotiations take longer than six weeks from phase one, the ceasefire will still continue as long as negotiations continue. The United States, Egypt and Qatar would work to ensure negotiations keep going, all agreements all agreements until all agreements are reached and phase 2 is able to begin.
